

# ITE Great Lakes District Annual Meeting

PROGRAM

**June 20-22, 2022**  
**DULUTH, MINNESOTA**

# Welcome

## ***Dear Friends, Colleagues, and Industry Professionals,***

On behalf of myself, the ITE Great Lakes District Executive Board, and the Annual Meeting Local Arrangements Committee, we are thrilled to welcome you in person to the shores of Lake Superior on June 20-22 at the Duluth Entertainment Convention Center in Duluth, MN.

The 2022 Annual Meeting has much to offer from a professional development and social perspective. We are excited to provide an interactive training session, varied and timely technical presentations, keynote, and some unique and fun social events.

Come early to see the sites along the north shore including Canal Park or Glensheen Mansion. Stay after to hike or mountain bike along the shores of Lake Superior or at the nearby State Parks. Either way, there are great things to do in the north shore area of Duluth. If you do come early, do not miss out on the interactive training session guided by two industry experts discussing safety fundamentals and mitigation strategies on Monday June 20.

The Technical Committee has developed a great program of diverse and relevant presentations that we hope will interest our District's diverse group of industry professionals. We have three tracks which include topics covering Safety, Technology/Traffic Engineering, and Planning/Mobility/Design. In addition, there are two technical tours associated with the program. The tours include a walkable tour of a local Duluth project and a guided boat cruise which will focus on how the Duluth port interacts with the City's multi modal transportation system. In between

sessions, visit our full slate of vendors and industry partners ready to share new ideas and services.

In addition to focusing on technical sessions and re-engaging with our peers, take advantage of some fun networking activities. Put your scavenger hunt skills to the test and join a team scouring Canal Park for clues to win the GLITEY race. Cheer on our district student teams who will be participating in the Traffic Bowl for the opportunity to compete at the ITE Annual Meeting. Congratulate our District award winners and scholarship recipients. Lastly, have some fun and reacquaint yourselves with old friends or make new ones at our Monday evening welcome reception hosted at Hoops Brewery or Tuesday evening reception at the Great Lakes Aquarium.

As a District, we are glad to have you back at the annual meeting. We hope that the annual meeting will provide an opportunity to share new ideas, catch up with old friends, and create new connections. Finally, I want to thank our District sponsors and vendors for without their support this meeting would not be possible.

Please take advantage of all the great events the 2022 Great Lakes District Meeting has to offer. See you in Duluth!

***Jeff Preston***

## ENDOWMENT FUND

The Endowment Fund was created to serve as an additional outlet for returning value back to the members of the District. At this stage, the Endowment Fund prioritizes helping young members and students to attend district meetings with monetary awards to be used to travel, lodging, registrations, and other associated costs. The Endowment Fund is intended to give aid to the members who need it most, whether that means agency members, students, or members whose workplaces might not make meeting reimbursements possible. As of this meeting, the Endowment Fund is up to \$10,000 and 2022 is the first year that funds were awarded to members. The Endowment Fund, along with help from one of our Platinum Sponsors Harrison Consulting, is pleased to have awarded monetary aid to seven members!

*There will be a silent auction throughout the Annual Meeting to raise funds for the Endowment Fund.*

## COVID GUIDELINES

### COVID PROTOCOLS AT THE ANNUAL MEETING WILL BE PER THE DECC

In an effort to be COVID conscious, the DECC works with St. Louis County Department of Health to maintain high safety standards in our facility.

Masks are now optional at the DECC for both guests and staff.

More Information on the DECC website:  
<https://decc.org/about-the-decc/covid-protocols/>

We believe all people  
should live in  
**SAFE, SUSTAINABLE,  
AND BEAUTIFUL  
COMMUNITIES.**

## DAY SESSION

8:30PM-  
3:30PM

### TRAFFIC SAFETY FUNDAMENTALS WORKSHOP (Holiday Inn & Suites)

This session will cover a number of key safety topics including system approach to crash risk and assessments and identification of counter measures to reduce fatal and injury crashes on the roadway system. Attendees will earn 6 PDH hours. This course will be taught by Howard Preston, PE and Vic Lund, PE. Howard Preston, PE is a retired Transportation Engineer and a part-time Professor at the University Of Minnesota, Twin Cities teaching a transportation course to civil engineering students. Vic Lund, PE is a Traffic Engineer for St. Louis County, MN and has served as the traffic engineer for the county that includes Duluth Minnesota for more than 13 years. Attendees must register and pay for the workshop when they register for the annual meeting.

## AFTERNOON

3:00PM-6:00PM

### REGISTRATION (Lyric Conference Center at the Holiday Inn & Suites)

## AFTERNOON

4:00PM-  
5:00PM

### GLITEY RACE (Starts/Ends at Lyric Conference Center at the Holiday Inn & Suites)

The GLITEy Race is a fun way to support the Great Lakes District Endowment Fund. The GLITEy Race is a scavenger hunt in the vein of the Amazing Race, in which teams of up to 4-5 people find and complete checkpoint stops given by clues around the meeting. Each stop consists of activities that may be fun, challenging, or even embarrassing, but every stop must be checked off by the checkpoint marshal before they head to the race finish line. The cost is \$10 per person and all proceeds go to the Great Lakes District Endowment Fund. It'll be a great time and all for an awesome cause.

Each person will sign up individually for the GLITEy Race and we will create teams of everyone who has signed up. If you forgot to register, we have space for you to join day of. Please email Tyler Krage (Tyler.Krage@cityofchicago.org). Meet in the Lyric Conference Center at the Holiday Inn & Suites.

## EARLY EVENING

5:30PM-6:00PM

### STUDENT/YOUNGER MEMBER HAPPY HOUR (Hoops Brewing)

All students and younger members are invited to the welcome reception a little early to mingle with the Great Lakes ITE Board and meet-and-greet before the welcome reception.

## EVENING

6:00PM-7:30PM

### WELCOME RECEPTION (Hoops Brewing)

Everyone is invited to kick off the 2022 Great Lakes District Annual Meeting at Hoops Brewing in Canal Park. This open-ended event is a great opportunity to meet up before and/or after dinner. Light hors d'oeuvres and a cash bar will be available. This is a no cost event.

## DINNER

7:30PM

### GROUP DINNER RESERVATIONS (Pay your own way)

If you are interested in getting dinner with attendees from the annual meeting, we will have sign-up sheets at the Welcome Reception for groups of around ten people to go to dinner at a local restaurant. Dinner is not included in annual meeting registration.

## MORNING SESSION

8:30AM-  
9:30AM

### WELCOME & KEYNOTE SPEAKER (ROOM 303, 304, 305)

**“Welcome to Duluth” Jeff Preston, Local Arrangements Committee Chair, Deb DeLuca, Executive Director of the Duluth Port Authority**

- We are excited to kick-off Tuesday with a presentation from Deb DeLuca, the Executive Director of the Duluth Port Authority. Deb will share about the port operations, rail, shipping, freight and businesses that are integral to operations.

A

### NEW PRACTICES AND TOOLS TO IMPROVE WORK ZONE SAFETY (ROOM 203)

- **“Iowa’s Dynamic Approach to TSMO Work Zone Management”** Cortney Falero, SRF Consulting Group, Inc.
- **“Wisconsin Work Zone Tools”** Andrew W. Heidtke, PE, Wisconsin Department of Transportation
- **“MnDOT Work Zone Speed Management Study: How Fast Are People Driving and What Can Be Done About it?”** Ken Johnson, PE and Sarah Irmey, EIT, MnDOT and HDR Engineering

**Moderator:** Ryan Jacox, Ciorba Group

B

### TRANSIT - TECHNOLOGY AND PROJECT HIGHLIGHTS (ROOM 204)

- **“METRO Orange Line BRT: Transit Advantages in an Auto Oriented Corridor”** James Gersema, PE, SRF Consulting Group, Inc.
- **“Implementing Intelligent Transportation Systems in Bus Rapid Transit Programs”** Jim Mersereau, PE, MSCE, HDR Engineering
- **“Reinventing a Signature Corridor for the Future”** Mike Scarmon, PE, PTOE and Kevin Wehner, PE, PTOE, KL Engineering

**Moderator:** Phil Kulis, SRF Consulting

C

### DEFINING AND DELIVERING THE TWIN PORTS INTERCHANGE PROJECT - DULUTH, MN (ROOM 205)

**Panelists:** Pat Huston, PE, MnDOT, Jim Hall, PE, SEH, and Brett Burfeind, PE, Alliant

**Moderator:** James Hall, SEH

D

### SUPERIOR STREET RECONSTRUCTION PROJECT WALKING TOUR (Meet in the pre-function area on floor 3 at 10:00am.)

Join the walking tour of the Superior Street Reconstruction Project to learn about one of Duluth’s oldest streets. The project includes replacing and repairing public utilities, improved pedestrian connections, better wayfinding, new streetscape and lighting, as well as increased amenity space. Dress appropriately to be walking outside for the entirety of the tour. Space is limited to 50 attendees. This is a no cost event and is available for sign up through Registration.

## LUNCH

11:30AM-  
12:30PM

### LUNCH (ROOM 303, 304, 305)

Beverly Kuhn, 2022 ITE International President, and Jeff Young, Great Lakes District International Director, will share updates from ITE International.

A

### AN INSIDE LOOK AT IMPROVING PEDESTRIAN CROSSINGS (ROOM 203)

- “Pedestrian Safety One Step at a Time” Sonja Piper, P.E., MNDOT
- “Back to the Basics: Who, What, Why, When, Where, and How of Crosswalks” Andrew Cibor, PE, PTOE, City of Bloomington
- “Pedestrian Safety Crossing Assessment - Lessons learned” John Maczko, PE and Tom Sachi, PE, SRF Consulting Group

**Moderator:** Kristi Sebastian, Dakota County

B

### TRAFFIC SIGNAL MANAGEMENT PLANS AND ASSESSMENTS (ROOM 204)

- “Chicago’s Traffic Signal Management Plan: Improving the Second City’s Traffic Operations to be Second to None” Tyler Krage, PE, Chicago Department of Transportation - Traffic Safety
- “Traffic Signal Automation- Moving Beyond Performance Dashboards.” Anuj Sharma, ETALYC, Inc.
- “Implementing Flashing Yellow Arrow in Ohio” Charlie Fisher, PE, Ohio Department of Transportation

**Moderator:** Ryan Bush, MS Consultants, Inc

C

### TRAFFIC MODELING AND PLANNING TECHNOLOGY (ROOM 205)

- “Advanced Traffic Modeling – Calibration and Lessons Learned” Kelsey Retherford, PE and Chloe Weber, EIT, Bolton & Menk, Inc.
- “It’s Time To Require A Daily Traffic Analysis” Joe DeVore, PE, PTOE, RSP2 (I) and Austin Lovaas, EIT, KLJ Engineering
- “Modeling Pedestrian Gaps to Determine Safety of Uncontrolled Crosswalks” Michael H. Schrader, PH.D., PE, University of Wisconsin - Milwaukee

**Moderator:** Morgan Nelson, Kimley-Horn and Associates, Inc

D

### VISTAFLEET BOAT TOUR OF THE DULUTH HARBOR (Meet in pre-function area on floor 3 at 12:40PM to walk to the Boat Tour)

This exciting VistaFleet Boat Tour will allow attendees to see Duluth from the water. The Boat Tour will include a tour guide to learn about all that is happening in the Duluth Harbor. Space is limited to 50 attendees. This event is available for sign up with the associated cost through Registration.

## EARLY AFTERNOON SESSION

1:00PM-2:30PM

## A GEOMETRIC DESIGNS TO IMPROVE SAFETY (ROOM 203)

- “A Closer Look at 4 to 3 Conversions” Scott Poska, PE, PTOE, Alliant Engineering, Brad Estochen, Ramsey County, and KC Atkins, PE, Hennepin County
- “Innovative Application of Road Diet Principles to Achieve Smart Growth Objectives with Roundabouts” Mark T. Johnson, PE, MTJ Roundabout Engineering

**Moderator:** Joe DeVore, KLJ

## B INNOVATIVE TECHNICAL TOOLS TO ASSIST WITH DECISION MAKING (ROOM 204)

- “Lessons Learned from a TSMO Multi Resolution Modeling Effort” James “Jim” Bunch, PTP, Mead & Hunt
- “Technology Advancements in Conceptual Design” Jacob Bongard, PE, PTOE and Christopher Braband, PE, Bolton & Menk, Inc.
- “Leveraging MSP Model to Optimize an Entire Traffic Control Operations for Safer and Smart Intersections” Mark Case, Econolite

**Moderator:** Lia Michaels, Hubbell, Roth & Clark, Inc.

## C TRANSPORTATION TO ADDRESS DIVERSE NEIGHBORHOOD NEEDS (ROOM 205)

- “Methods to Identify Diverse Neighborhood Transportation Needs” Gloria Jeff, AICP, MnDOT
- “A Safer Better Place: Pursuing Traffic and Public Safety in a Diverse Urban Neighborhood” Cody Christianson, PE, ENV SP and Haila Maze, Bolton & Menk, Inc.

**Moderator:** Craig Vaughn, Transportation Collaborative & Consultants

## TRAFFIC BOWL (Pre-function area on floor 3)

**Host:** Nick Erpelding, Hennepin County

**Teams:** Michigan State University and University of Wisconsin

We are excited to have two student teams competing in the Traffic Bowl; Michigan State University and the University of Wisconsin. The student Traffic Bowl will happen from 4:30pm – 5:00pm in the pre-function area on floor 3. Following the student competition, we invite the professionals to create teams to compete against the student teams. The professional vs student competition will start around 5:00pm after the student competition. Reach out to Nick Erpelding (Nick.Erpelding@hennepin.us) to sign up to be on a professional team.

**LATE  
AFTERNOON  
SESSION**

3:00PM-4:30PM

**HAPPY  
HOUR**

4:30PM-  
5:30PM

## EVENING RECEPTION WITH DINNER (GREAT LAKES AQUARIUM)

### EVENING

6:00PM-  
8:00PM

This relaxed social event at the Great Lakes Aquarium will provide an opportunity for all attendees to interact and build relationships. Dinner is included and a cash bar will be available. There is no additional cost for this event, it is included in Tuesday registration to the annual meeting.

## DETAILED SCHEDULE

### BREAKFAST

8:00 - 8:30AM

**BREAKFAST** (*Pre-function area Floor 3*)

### MORNING SESSION

8:30AM-9:30AM

#### **GREAT LAKES DISTRICT AWARDS/RECOGNITIONS** (*Room 303, 304, 305*)

- Scott Poska, Great Lakes ITE President
- Ryan Bush, Great Lakes ITE Treasurer

The business meeting will include a brief year in review and overall state of the District. District Award recipients will be recognized including outstanding achievement in transportation and transportation professional of the year.

**A**

#### **INCORPORATING PLANNING FOR BIKES AND PEDS INTO CORRIDOR DESIGNS** (*Room 203*)

- “Programmatic Solutions Improve Pedestrian Safety”  
Tom Flask, PE, PTOE, LJB Inc.
- “Redesigning Hennepin Avenue: A True Multimodal Experience”  
JoNette Kuhnau, PE, Kimley-Horn and Associates, Inc
- “What About Us? Demonstration Projects to Enhance Active Transportation in Smaller Communities” David Peterson, AICP, Bolton & Menk, Inc.

**Moderator:** Kevin Peterson, Washington County

### LATE MORNING SESSION

9:45AM-11:00AM

**B**

#### **SENSORS, DETECTION, REAL TIME FEEDBACK** (*Room 204*)

- “New Sensor Technologies for Roadway Situational Awareness”  
Jason Robinson, Econolite
- “Overheight Detection System for the 28th Street Bridge Over I-90” Jim Mersereau, PE, MSCE and Sarah Irmen, EIT, HDR Engineering & MnDOT
- “Trajectory Based Signal Performance Measures – What are They? and How Can They Help Agencies Improve Performance and Reduce Emissions?”  
Gary Carlin, PE, PTP, INRIX

**Moderator:** Mike Siffer, GAI Consultants

**C**

#### **TOWN HALL** (*Room 205*)

- “ITE Town Hall Meeting” Beverly Kuhn, PH.D., PE, PTOE and John Davis, PE, PTOE, ITE Executive Committee

**Moderator:** Jeff Young, HDR

## DETAILED SCHEDULE CON'T

### AFTERNOON SESSION

11:15AM-12:30PM

#### **A** VEHICLE TECHNOLOGY AND SAFETY CONSIDERATIONS (Room 203)

- “Customizing Tools for Out of the Box Problems” Mike Bittner, PE, PMP, PTOE, Bolton & Menk, Inc.
- “Automated Vehicles Do Not Equal Automatic Safety” Corey Clothier, Stantec
- “Enabling Barrier-free Mobility with Autonomous Vehicles” Corey Clothier, Stantec

**Moderator:** Ken Johnson, MNDOT

#### **B** A LOOK AT UPDATES TO TRAFFIC ENGINEERING REFERENCE TOOLS (Room 204)

- “Oh Those Gas Stations...! What’s Changed and How to Calculate Trips Correctly Using the Updated 11th Ed. of ITE Trip Generation Manual” Eric Tripi. PE, PTOE, GHD
- “What is in the Highway Capacity Manual 7th Edition?” Fabio Sasahara, PH.D., PMP, McTrans Center
- “Key Geometric Design Principles for Optimal Roundabout Safety” Mark T. Johnson, PE, MTJ Roundabout Engineering

**Moderator:** Mike Powers, KLJ Engineering

#### **C** CORRIDOR PLANNING - A LOOK AT SUCCESSFUL PROJECTS (Room 205)

- “Highway 61 Corridor - Two Harbors, Minnesota ” Tim Thoreen. PMP, Joe Devore, PE, PTOE, RSP2(I), KLJ.
- “The 7-Line: Bloomington’s 7th Street Protected Bike Lane Corridor” Andrew Cibor, PE, PTOE, City of Bloomington
- “A Suburban Arterial Complete Street Corridor Working with the Community” Jeff Young, PE, PTOE, HDR

**Moderator:** John Maczko, SRF Consulting Group

### LUNCH 12:30PM

#### **BOX LUNCH** (3rd floor lobby)

There will not be a seated lunch on Wednesday. For those that signed up for a box lunch when they registered, box lunches will be available in the pre-function area on floor 2.

## Visibility when it counts.

Help drivers navigate dark and rainy roads with 3M™ Wet Continuous Retroreflective Pavement Markings.

**1.25 million**  
lives lost globally per year due to traffic crashes  
Source: WHO, Road Traffic Injuries, Jan., 2018.

**49% of fatal crashes**  
happen at night, even though the majority of traffic is on the road during the day.  
Source: Forbes, Most Dangerous Times to Drive, Jan., 2009.

If it never rained or people never drove after dark, ordinary pavement markings would be fine—in ideal conditions, they're easy to see and interpret. But that's not the world we live in. Unfamiliar roads become more difficult to navigate after dark. Rain-covered roads can be downright treacherous at night.

You can drastically improve the visibility of your markings in any weather or lighting condition with 3M™ Wet Continuous Retroreflective Pavement Markings. These durable and highly reflective markings give drivers and driver assist systems the cues they need to help get everyone home safely.

At night, during rainy conditions, non-wet retroreflective pavement markings disappear, which may lead to:

Reduced driver visibility

Increased driver discomfort

Less effective CAV lane guidance systems

Crash risk increases
